

## TECHNICAL DATA SHEET

### Soot Cleaner

**Systac Soot Cleaner** is a specially developed cleaner with a high concentration active substances, in order to remove effectively carbon residue in air compressor systems. The reaction between lubricating oil, condensation and enormous temperature changes creates stubborn, difficult to remove carbon residues that affect the operation of the system. In addition, **Systac Soot Cleaner** is extremely suitable for cleaning EGR-coolers, intake systems, exhaust ducts, valves in disassembled condition. Caution: rubber, packing materials and plastics can be affected by **Systac Soot Cleaner**.

### Assets of the product

**Systac Soot Cleaner** offers the following advantages if used according to specifications:

- Cleans parts polluted by carbon quick and effective,
- Multifunctional cleaner for many applications,
- By cleaning with **Systac Soot Cleaner**, parts will have to be replaced less-frequent.

### Available packaging

SYS-SCL-90030 – **500 ML**, SYS-SCL-90030 – **4 L**

### Instructions

Treat the parts with **Systac Soot Cleaner** and leave for half an hour. Afterwards, continue cleaning the parts manually with **Systac Soot Cleaner** or high-pressure spray. Use in a well-ventilated area and wear the prescribed protective equipment.
